

Secure hay bales by to each other by tying twine as shown between the twine, holding the hay bales together

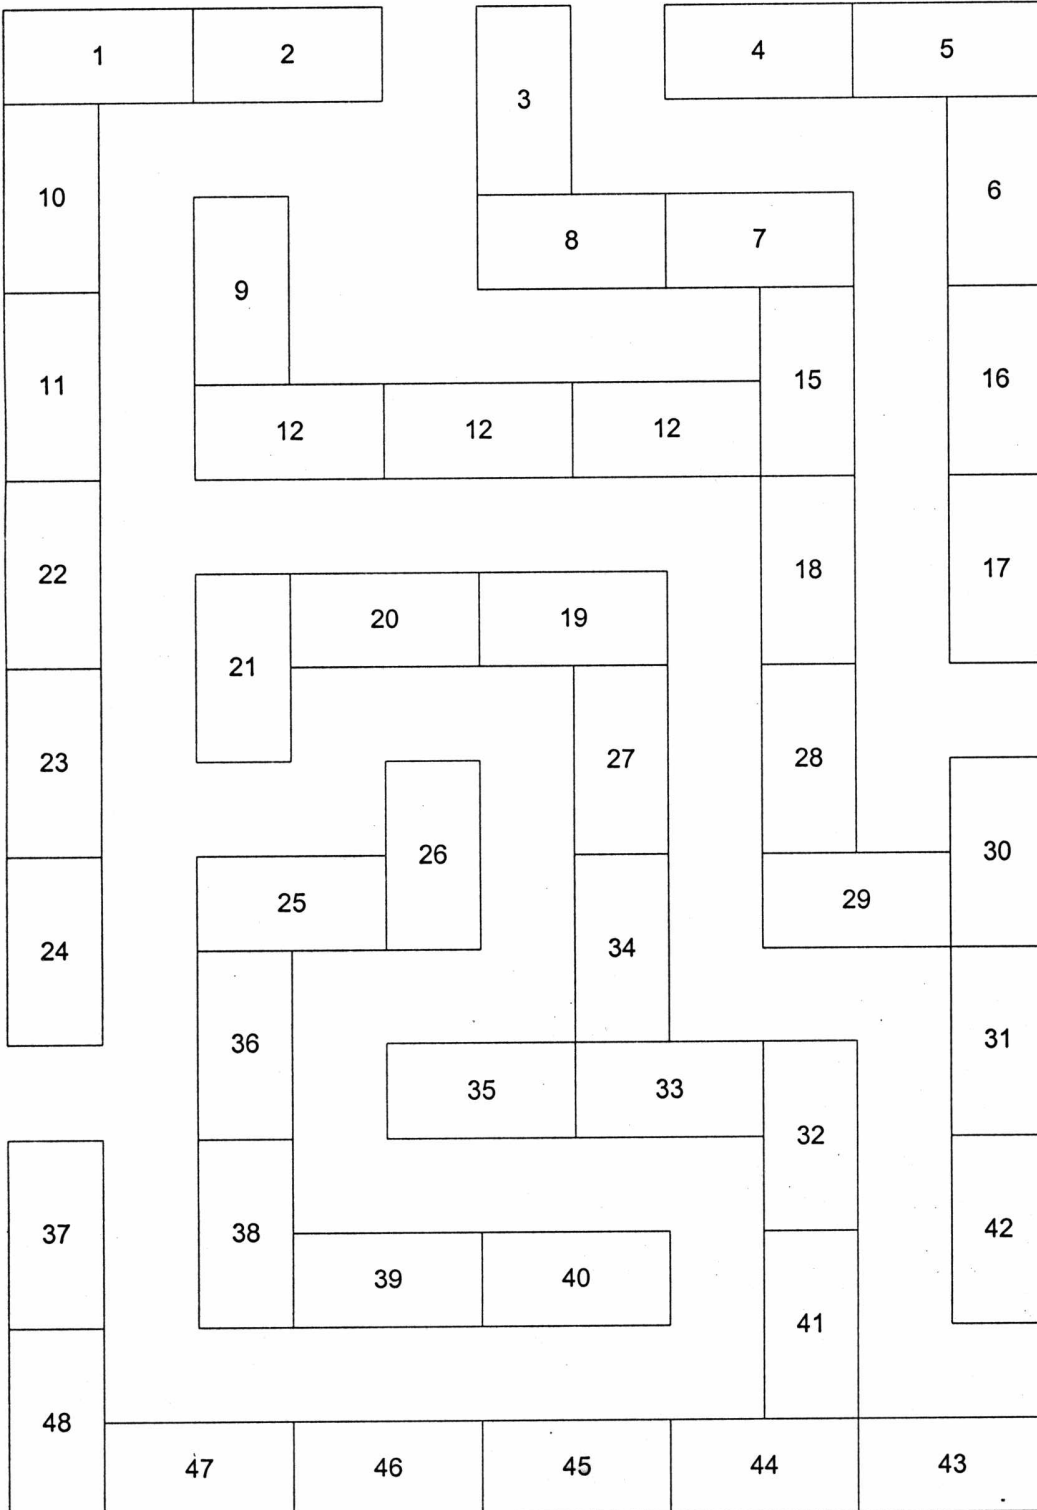

Twine on Hay bales

Offset top layer from bottom and secure the top layer to the bottom layer by tying twine through the top hay bale's twine to the bottom layer's twine. Using a similiar criss-cross as used when tying the bottom and top layers together

Offset top and bottom hay bales like this where possible

Cover top with Tarp and secure tarp with ropes. Place some hay bales or plywood on top of the tarp in the Middle of the maze to keep the tarp from getting pushed up.
